Portland, Sept. 1, 1873.

Statement: My son Henry, now six years of age, had a severe attack of the undignant form of searlet fever about four years ago. My family physician, Dr. Hamilin, of Marysville, Callfornia, told me that the child had better have died, as he would be afflicted all his life with sores of a scrolulous nature, which he considered incurable. The condition of the child up to last April seemed to confirm the Isoctor's opinion, as he never was free from those eruptions sores. A number of our best physicians had endeavowd in vain to give the child relief. At the time I commoned giving him Dr. Horzen's Small-pox Remedy the child was unable to open his cyes, his face was a complete mass of inflammation and correption running from both ears. He took two bottles of the above-named medicine as per directions. In twelve hours from commencing to take the medicine, a favorable change was noticeable, and in less than six weeks all traces of the old affliction had disappeared. JNO.M. > For the benefit of my friends and the public, I state the following facts: On the 6th day of September, I felt quite unwell, having head-acte, pains in my back and joints, with occasional chills; a fever set in and about the 9th a scarlet rash was plain to be seen on my skin. I had become satisfied that I had the symptoms of small-pox, and commenced taking Corwin's preparation for the cure of that discuss, and it proved a success in my case, as no farther developments appeared. I being exposed to the smail-pax, contracted the disease. I used for it Corwin's preparation and no other medicine except alteratives. The postules never matured, Left no marks. My illness was not at all severe. My children, five in number, were all taken with the disease, and treated byone of our less physicians, employed by the city. One, a giri of four years, died, and the balance were hadly marked. I need about two bottles of the medicine. need about two bottles of the medicine.

FMILY MCMAHON.

Portland, Oregon, August 23, 1873.

I was taken with small-pux atout the 25th of July. I had purchased a bottle of Dr. Borgeau's Small-pox Romedy some time pravious, and commenced taking it as soon as I was satisfied I had the disease, which was on the second day of my iliness. My sickness was mild, except severe vomiting, which took place before I commenced using the medicine. The vomiting is what convinced me in the first place that I had the small-pox. I took one bottle—I think about thirty doses. In three days I was able to go to wark. I have have no doubt but that the Remedy saved me from being marked, and perhaps from death.

Statement of J. R. Lake, dealer in stoves and tin-ware, on Front, between Morrison and Yambill streets: "My daughter was taken with the amail-pox about the lish of Angust. A physician was employed, and the patient was apparently in a critical condition. I procured br. Borzeau's Small-pox remedy, which was administesed with apparent good effect. My wife, being exposed, had taken the medicine as a preventative—had the primary symptoms, out no postules, or serious sickness."
